Hello and welcome to a special episode of Hankgames without Hank in which I bring you up to date on the current situation with the Swindon Town Swoodilypoopers, uh, which is in the Barclays Premier League.

After a stirring turn of events and s bunch of wins we are now twelfth, we are in twelfth position as you can see over there on the right hand side of the screen. John Green and John Green both have seven goals this season but the Swindon Town Swoodilypoopers are twelfth. We have spent the entire season between sixteenth and seventeenth but since going to the 4-3-3 we've been on an incredible run. I want to thank everybody for their help making me a better player, um, because it has certainly worked. I'm incredibly excited.

OK, so we're going to go the the F.A. Cup. I'm gonna show you, uh, fixtures and results so that you can get a sense of where we are in the F.A. Cup as well, um, which is that we have just, we are going to be in round six and we'll be playing Hull City. As you can see, the two big teams left, Chelsea and Manchester City will be playing each other in round six which is a huge relief for us. It means that we have a pretty, we have a path, at least, to the semi-finals and then to the finals, um, which is really really exciting. So we, uh, we just have to go ahead and beat Hull City which, you know, it won't be easy but it is doable.

Over in the League... Let's now go to the Euro League, um, give you a sense of what's going on there. We are still in it as well, in the Euro League. As you can see, we are in the round of 32, we'll be playing that team from, I think, Germany. And then if we win in knockout play we'll go to the round of 16 and then to the quarter finals and there's a lot of money there so hopefully we will.

And then in the Barclays Premier League, uh, as you can see we're not winning. We are, in fact, some... Oh, no we're in eleventh! Look at that! Stan, things just got better because I'm a bad counter. Um, we're in eleventh. Uh, we are a lot of points behind Chelsea which is in first place. We have 26 points and a goal differential of -4, they have 54 points. But very significantly we are only 12 points out, wait. 12 or 18? I'm so bad at math! Stan, what's 44 minus 26? That's 18 isn't it. We're 18 points out of fourth. It's unlikely that we're going to get a spot in the Champions League by finishing in the top four. That would be really fun though so I'm certainly gonna try my best. Uh, I think if we win out we might. We've got twenty... we've played 22 games which means, and we have 38 games total so we've got 16 games to go. Very unlikely that we can make up an 18 point spread in 16 games but, you know, we've been on a heck of a run.

So I want to thank everybody for supporting the club. As always, leave your suggestions for what you would like me to talk about in comments, I take them seriously and I don't know what to talk about unless you tell me. So, thank you and, as always, best wishes.
