(Intro)

Hey there guys, I am Matthew Gaydos, and welcome to The Warehouse, the weekly show where we show the DFTBA warehouse, with you.

First off let's go ahead and address this giant stack of boxes behind me which I've come to call Mount Hoodie. Because it is just filled to the brim with all of these lovely DFTBA hoodies that we just got in, and these're going to start going out this week. So if you pre-ordered one of these, expect it in your mailboxes very soon.

But that means it's time for everyone's favorite (starts to talk like The Count from Sesame Street) merch news segment! The newest of the new merch news. blahh. (Normal talking) A while ago I told you guys about these lovely CrashCourse DVD sets. Well now joining those is some new CrashCourse merchandise. First up we have this lovely CrashCourse logo T-shirt with John and Hank's heads peeking out over there.

And on top of that we have the largest poster that DFTBA has ever sold, and that is this beautiful CrashCourse periodic table poster, which once you get home and on your wall you can see all the lovely little details that are hidden in there. Like I said, this thing is HUGE, it's 27 inches by 39 inches. So get your walls ready.

So we also have a few new items from the HPA- the people over at the Harry Potter Alliance. First up we have some Chocolate Frogs. Now these are Fair Trade chocolate frogs, and they're available in both milk and dark chocolate. This might be DFTBA's first edible product, or at least the first product that's intended to be edible. I don't know what you guys are doing with your Pizza John shirts when you get them.

But also from the HPA: we know you guys love this Books Turn Muggles Into Wizards shirt, so we went ahead and made it into a hoodie, that is up for pre-order right now on the website. And that's a good looking hoodie.

And finally this week, as we do almost every week, we have some brand new CTFxC Merchandise. A lot of you know that a while back, Charles was diagnosed with brain cancer, and he has decided that he really wants to do something to help out brain cancer research. So starting on Wednesday, these CTFxC ribbon shirts will be available up on the website for pre-order. And the really cool thing is that 100% of the profits from this T-shirt are being donated to brain cancer research.

So you know that if you plan on picking up one of these shirts, or one in every color, all the profits are going towards trying to get rid of brain cancer once and for all.

But that is it for this week guys. Don't forget to leave any questions, comments, and your favorite element from the periodic table down in the comments below. Links to everything I talked about today will be down in the flap. And you can always find me on my channel at YouTube.com/MatthewGaydos, or on the twitter @MatthewGaydos .

So I will see you next week for another episode of The Warehouse, and as always, don't forget to be awesome.
